

smarshEncrypt Directions

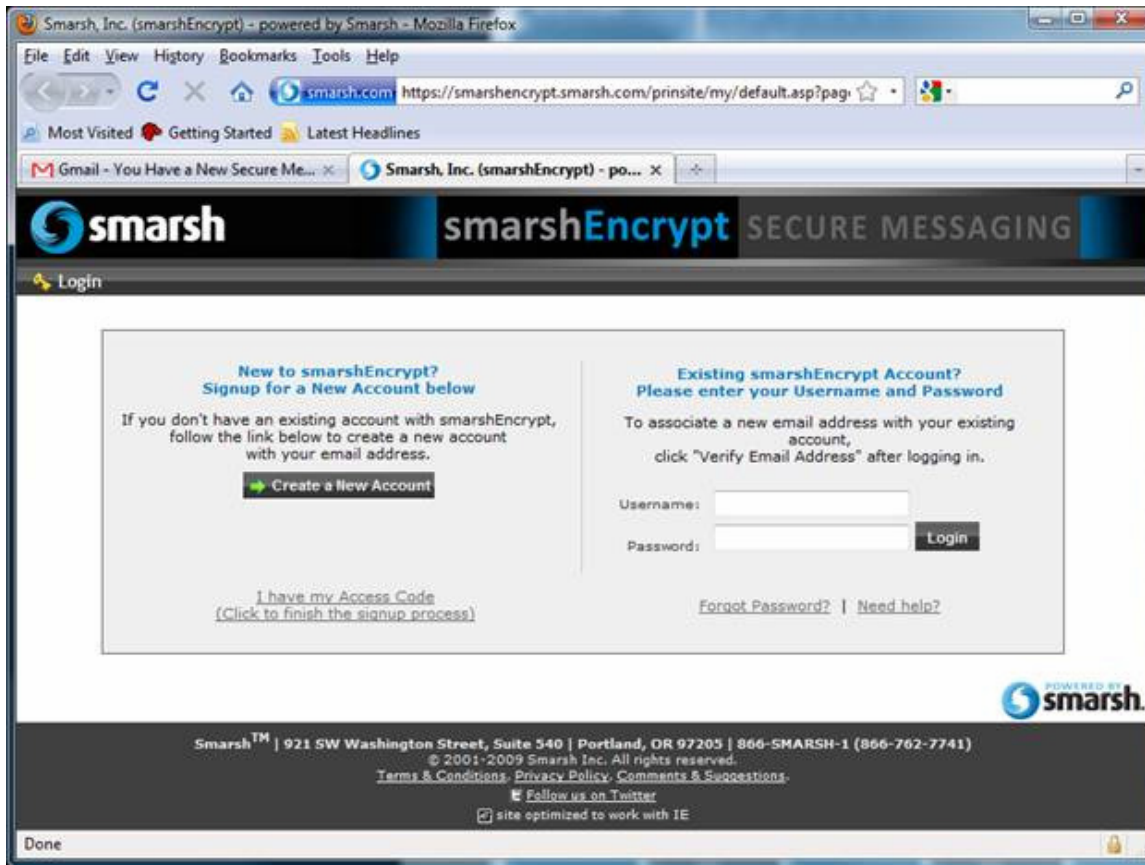

The message contains some brief instructions about retrieving your sensitive message.

Click the link to continue to smarshEncrypt.

You will be presented with the options of creating an account if this is your first time receiving a secure message, or logging in with your account if you all ready have an account.

If this is your first time, click Create a New Account.

Enter your email address in the field, and click the Click to Send Access Code button.

Check your email. A new message with an access code will be in your inbox.

Click the blue link inside the message.
